#### Tips for code 88-3457 and 88-3458

## Model ZD-716

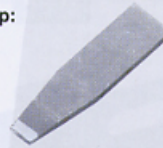

### FEATURES

- ZD-716 soldering iron utilizes two-sided flat panel heat element which enables tips of iron to heat up regularly and promptly.
- Flat heating design makes product compact and easy use.
- aranteed precise and professional performance.
- Easy-to-handle, ergonomic design.
- Highly insulated; conforms to safety standards.
- Includes chiseled-reinforced nickel pl. soldering tip.
- Ideal for soldering tip.
- Ideal for soldering shells, sealing and radiator repair.
